

# Croda Lubricants

## Perfad 3950

Strong lubricity package providing exceptional multi-metal cutting performance

Perfad 3950 was tested against the leading soluble and semi-soluble cutting fluids in the market. **Microtap torque results show that it out-performed** its competitors, offering greater lubricity on both aluminum and steel. The proprietary formulation gives an inherently low-foam profile, even in soft water.

Other benefits include:

- Longer tool life
- Stable emulsions
- Tramp oil rejection
- Formulation flexibility
- Increased throughput
- Low foam
- Non-staining

**CRODA**  
a unique chemistry
